

KIDS INTRO VO WORKSHOP

at Atlanta Voiceover Studio

COVID Policy 2021

The safety of your family is **very important** to us. We will ensure that these policies are followed by both the AVS team and our students all while having a blast!

- This workshop is limited to just 5 students (which maximizes individual attention AND keeps the amount of kids in the room low).
- As anyone enters our office, we ask that they use the hand sanitizer we provide just inside the door. This will reduce any germs that could spread as people come in.
- Everyone will be asked to fill out a quick checklist before class as well as a waiver and temperature check. If you have been around anyone with COVID19, experienced any similar COVID19 symptoms or possibly sick, we ask that you stay at home. **Anyone over 100F will be sent home.**
- We know that it won't be possible to wear masks for the entire class (like when in the recording booth), but we ask that students wear it as much as possible.
- We will still be getting students on the mic. We'll be sanitizing the pop filter and headphones in between each student.
- We'll spread the chairs further apart in the classroom to maintain distance between classmates.
- We'll be sanitizing the office before and after the workshop (including the bathrooms, door handles, etc).
- Parents are more than welcome to come in when dropping off, but we ask that you wait in your vehicle or find something fun to do around town for the duration of the workshop.
